Professional Summary

Computer Science undergraduate with strong foundations in Java, Data Structures and Algorithms, DBMS, Operating Systems, and Computer Networks. Skilled in backend development, RESTful API design, JWT authentication, and AI-powered applications using Node.js, Express.js, and MongoDB to build efficient, scalable, and user-focused systems. Seeking an entry-level Software Developer role.

Technical Skills

Programming Languages: Java, JavaScript

Backend: Node.js, Express.js

Frontend: HTML, CSS, React.js

Databases: MySQL, MongoDB

Deployment: Vercel, Render, MongoDB Atlas

Core CS: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, Postman

Education

CV Raman Global University

Bachelor of Technology in Computer Science

2023 – 2026

CGPA: 8.93

KIIT Higher Secondary School

Class XII

2021 – 2023

87.6%

Projects

Farmora - Agricultural Web Platform

- Developed a backend-focused agricultural platform using Node.js, Express.js, and MongoDB.
- Integrated GenAI features to provide smart agricultural insights and user support.
- Implemented JWT authentication, CRUD operations, and API management.

URL Shortener

- Built a web application to generate shortened URLs with unique identifiers.
- Implemented backend redirection logic, click tracking, and structured API routing.
- Applied validation techniques for secure and reliable functionality.

Aapda Mitra - Disaster Preparedness Application (SIH 2025)

- Developed an educational platform to promote disaster preparedness awareness.
- Designed interactive learning modules and quiz-based assessments.
- Collaborated in a team environment to deliver features effectively.

Achievements

- Participant - Smart India Hackathon (National Level)
- Participant - IIIT Hackathon D3 Fest
- Solved 500+ Data Structures and Algorithms problems across LeetCode and GeeksforGeeks
